

ENGINEERED TO ADVANCE IN DEMANDING WORK ENVIRONMENTS

FP Diesel® offers **premium, precision-engineered engine parts** for demanding commercial applications. Built with advanced metallurgy and coatings, **these components perform reliably in high-load, high-temperature conditions**. Trusted across industries such as **construction, marine, and trucking**, FP Diesel delivers dependable components that solve problems, simplify installation, and enhance engine performance.

ENGINE EXPERTISE

FP DIESEL PRODUCTS

Engine Kits: In-Frame, Overhaul, Re-Ring Kits	Gaskets and Seals	Cooling System Components
Cylinder Kits and Liner Kits	Engine Bearings	Lubrication System Components
Pistons and Piston Kits	Valves / Valvetrain Components	Fuel Injection Components
Piston Rings	Crankshafts	Turbochargers - On Highway Engines
	Camshafts	

FP DIESEL STANDS FOR

- A Leading aftermarket brand of diesel and sealing parts
- A full-line supplier with comprehensive coverage (One-Stop-Shop)
- An important manufacturer of engine parts with OE pedigree
- We control design, engineering, costs, and quality
- We manufacture the majority of the parts we sell
- Access to advanced engineering through our global technology centers
- We maximize value to equipment owners with OE quality and competitive pricing
- In-house Engineering

UNIQUE TO THE BRANDS: OUR 8 STANDARDS

Complete service for **premium replacement parts**

Coverage that solves your heavy-duty engine rebuilding needs

Precise manufacturing and fabrication techniques

Rigorous **quality control**

Latest CAD technology and innovative solutions to industry challenges

For construction, marine, agricultural, mining, gas compression, trucking and industrial customers around the globe

Parts backed by **the most comprehensive warranty program** in the heavy-duty industry

QUICK LOOK BENEFITS

Benefit 1: Market-leading coverage

- High-quality parts for Agriculture, Industrial, Marine and Off /On Highway Engines

Benefit 2: Leading Cylinder Component, Bearing and Sealing Technologies

- Advanced Material & Solutions, incorporating OE-equivalent designs

Benefit 3: One-Stop-Shop synergistic supplier

- Full In-Frame, Overhaul and Liner Kit solutions next to single parts and components product range
