

## FP Diesel Nozzle & Control Valves

- **Built Tough** – Engineered for harsh conditions in commercial and off-highway equipment to maximize uptime
- **Efficient & Durable** – OE-matched design and build, tuned for fuel savings and long life
- **Smooth & Quiet** – Consistent performance with low noise and stable operation
- **Road Emission Standard** – Full range for Euro III–VI and CN3–CN6 standards
- **On-highway Emission Standard** – Meets global T2, T3, and T4 emission regulations
- **Global Support** – Backed by DRiV's worldwide network for technical and service assistance

### CONTROL VALVES

FP Diesel control valves enable precise and rapid regulation, optimizing combustion efficiency and improving fuel economy. They deliver strong performance and reliable durability while meeting stringent emission requirements.

### Nozzle

Deliver precise injection and consistent performance for complete combustion and smooth operation. They enhance power response while lowering fuel consumption and noise, ensuring high operational readiness.

| FPD Product   | Part No.  | OE No.    |
|---------------|-----------|-----------|
| Nozzle        | FP-NZ7002 | L216PBC   |
| Nozzle        | FP-NZ7003 | L215PBC   |
| Nozzle        | FP-NZ7004 | L222PBC   |
| Nozzle        | FP-NZ7007 | L229PBC   |
| Control Valve | FP-CV7001 | 7135-588  |
| Control Valve | FP-CV7002 | 7206-0379 |
| Control Valve | FP-CV7005 | 7206-1010 |
| Control Valve | FP-CV7006 | 7206-1013 |
| Control Valve | FP-CV7007 | 7206-0936 |
| Control Valve | FP-CV7008 | 7206-0460 |
| Control Valve | FP-CV7010 | 7206-0372 |
